ABOUT THE JOURNAL

International Journal of Environmental Health and Technology (IJEHT) is an interdisciplinary, peer-reviewed journal covering all areas of environmental science and sustainable technology relevant to the applied science, medical and engineering communities. *IJEHT* publishes full length original papers, short communications, review papers, Technical reports, letters, and periodic to the Editor. Papers are welcome, which apply environmental principles to understand environmental processes, remediation and relevant health problems. The interdisciplinary approach of the publication ensures that the editors draw from researchers worldwide in a diverse range of fields. The journal aims to be a leading peer-reviewed platform and an authoritative source of original research and reviews related to environmental health and sustainable technology. The journal is publishing print and online versions on a bi-monthly basis (6 issues per year).

TYPES OF MANUSCRIPT

Short Communications: A Short Communication is suitable for recording the results of complete small investigations or giving details of new models or hypotheses, innovative methods, techniques or apparatus. The style of main sections need not conform to that of full-length papers. Short communications are 2 to 4 printed pages in length and should not exceed 4000 words.

Research Paper: These should describe new and carefully confirmed findings, and experimental procedures should be given in sufficient detail for others to verify the work. The length of a full paper should be the minimum required to describe and interpret the work clearly. Research Papers should not exceed 10000 words.

Review Paper: Submissions of review papers and perspectives covering topics of current interest are welcome and encouraged. Reviews should be concise and no longer than 10-12 printed pages and the length of Review Papers is will flexible but only critical review papers be considered.

Word counts include abstract, text, references, acknowledgments, figures and tables. The word count of each figure and table should be estimated based on 500 words equivalent for one printed page. *Perspectives* and *Letters to the Editor* are welcome but they should not exceed 500 words.

BROAD AREAS OF THE JOURNAL

Environmental pollution and Human health: Pollution (water, air & soil), Climate change and associated health issues, Fate and transport of pollutants (trace metal, pesticides, xenobiotics, aerosols, dioxins and furans, particulate matters, radioactive isotopes, bio-origin compounds, etc.) in environment and their impact on life system, Climate change and infectious diseases, Water born diseases and chemical agents, Emerging contaminants, Environmental challenges, Urbanization and environmental safety planning, etc.

Sustainable treatment and Remediation technologies: Bioremediation approaches for water and soil treatment (biomaterials and microorganisms), Application of nanotechnology (AOP, adsorption, & membrane filtration), Hazard waste management and health risks, Emerging technologies for treatment of hazard contaminants in water and air, Sustainable conversion of waste to energy and useful product, Carbon capture and sequestration techniques, application of advanced and novel analytical techniques, soil decontamination and industrial effluents (waste waste and contaminated air) treatment, application of GIS and remote sensing, etc.

Environmental biology and Ecological services: Wildlife Rehabilitation, Man wildlife conflicts, Sustainable agricultural management, ecological pathways and human interference, Lake restoration, Wetlands and biodiversity, Ecosystem conservation models and tools (forests, agro-ecosystems, wetlands, coastal and marine ecosystems), Ecosystem functions, Ecosystem services and human wellbeing, Ecosystems and global change, Forest and climate change, Forests and carbon sequestration, Forest, land and water nexus, Water, energy and food nexus, Eco-tourism and governance, Carbon forestry, Natural resources and sustainable conservation, etc.

Environmental management and Policy: Human health and environment, Environmental management and policy, Environmental regulation and governance, Health risk assessment and management, Environmental policy and socio-economic issues, Environmental laws and policies, Environmental standards and criteria, Environmental impact assessment, Industrial ecology and management, Emerging policies and tools, Environmental policy integration, Environmental governance and participatory, Environmental education and awareness, Policy instruments for better environmental regulation, Ecological economics and institutional dynamics, etc.

EDITORIAL BOARD

Editor-in-Chief: **Shivaraju H Puttaiah**, PhD
Assistant Professor & Course-Cordinator
Department of Environmental Sciences (Water and Health)
JSS Academy of Higher Education and Research, Mysore-570015, India
Email: shivarajuhp@jssuni.edu.in
editorgreenspub@gmail.com

Associate Editors: **Behzad Shahmoradi**, PhD
Associate Professor
Environmental Health Research Center
Kurdistan University of Medical Sciences
Kurdistan, Iran
Email: bshahmoradi@muk.ac.ir

David Jenkins, Ph.D,
Professor
Faculty of Science and Engineering
University of Plymouth, United Kingdom,
Email: D.F.Jenkins@plymouth.ac.uk

EDITORIAL ADVISORY BOARD MEMBERS:

Nnnesi Kgabi, Ph. D, *Associate Dean*, (Additional Associate Editor), Faculty of Engineering
Namibia University of Science and Technology, Namibia, **Email:** nkgabi@nust.na

Pisit Chareonsudjai, Ph.D, *Professor*, (Additional Associate Editor)
Department of Environmental Sciences, Khon Kean University, Thailand, **Email:** pisit@kku.ac.th

Manoj Kumar, Ph.D,*Professor*, (Additional Associate Editor), Department of Environmental Engineering

OPEN ACCESS PUBLICATION

Open Access publication offers a valuable platform for the authors and researchers to contribute their work that reaches the readers across the globe without any subscription barriers. Open Access publication facilitates the free and fair circulation of information that is well researched at no cost to the readers, hence promotes universal equality and transparency.

Author Benefits:

- Authors get global visibility as the journals reach a vast section of readers online instantly
- Raises author's reputation as the manuscripts get indexed in reputed indexing sites
- Archived and available to the researchers and authors in the data base, hence available for citations.
- Free access to the researchers enables your reach to global audience.

SUBMISSION OF RESEARCH MANUSCRIPTS

Online submission: Submit manuscripts in Microsoft word file by uploading your manuscript through Online Submission. Papers sent in PDF format will not be accepted. A manuscript number will be mailed to the corresponding author for further communication. For all other correspondence that can be sent by e-mail, please visit Contact Us section of the Journal.

Every manuscript should contain the Covering Letter, which includes the corresponding author's and co-author(s)'s full address and telephone and should be in an e-mail message sent to the Editor, with the file. The authors should also suggest panel of five or more reviewer's contact details in the cover letter. The manuscript should prepare according to the Author Guideline of the journal and manuscript may be returned to authors that do not adhere to the Author Guidelines.

Submission Preparation Checklist: As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

1. The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
2. The submission file is in Microsoft Word file format.
3. Where available, URLs for the references have been provided.
4. The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines, which is found in About the Journal.
5. If submitting to a peer-reviewed section of the journal, the instructions in Ensuring a Blind Review have been followed.

Submission of the Papers: Article submitted to the Review should be original contributions. Only original papers are considered for publication. The authors may be asked to declare that the manuscript has not been submitted to another journal for consideration at the same time. The submitting author is responsible for obtaining agreement of all co-authors as well as any sponsors required consent before submitting a paper. Responsibility for the content of a paper lays on the Authors and not on the Editors or the Publisher.

It is essential that authors prepare their manuscripts according to established specifications given in author guideline. Manuscripts must be submitted only in English and should be written according to sound grammar and proper terminology. Failure to follow them may result in papers being rejected. Therefore, contributors are strongly encouraged to read the author guidelines carefully before preparing a manuscript for submission in IJEH&T. The manuscripts should be checked carefully for grammatical errors. All papers are subjected to double blinded peer review. Plagiarism (Copying others work) is an act of fraud and treated seriously by IJEH&T.

Review Process: All published journal papers are refereed by the international competent researchers and scientists. Therefore, all manuscripts are reviewed by the editorial board and assigned reviewers who expertise in that area. The reviewer's recommendations determine whether a paper will be accepted/ accepted subject to change/subject to re-submission with significant changes/rejected. For papers, which require changes, the same reviewers will be used to ensure that the quality of the revised paper is acceptable. All papers are refereed, and the Editor reserves the right to refuse any typescript, whether on invitation or otherwise, and to make suggestions and/or modifications before publication. Decisions will be made as rapidly as possible, and the journal strives to return reviewer's comments to authors within 12 weeks. The editorial board will re-review manuscripts that are pending for revision. It is the goal of the journal to publish accepted manuscripts within 2 weeks after acceptance in both online and print versions.

Copyright Notice: Submission of an manuscript implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the authorities responsible where the work was carried out.

Copyrights for manuscripts are retained by the authors, with first publication rights granted to the journal. Authors have rights to reuse, republish, archive, and distribute their own manuscripts after publication. The journal/publisher is not responsible for subsequent uses of the work. A completed Copyright Form must be filled for each accepted manuscript and that should be duly signed, scanned and sent by Registered Post to the Editor. No changes in, or additions to, the accepted manuscript will be allowed. Proof reading is solely the author's responsibility.

Privacy Statement: The names and email addresses entered in this journal site will be used exclusively for the stated purposes of this journal and will not be made available for any other purpose or to any other party.

MANUSCRIPT PROCESSING FEES

This journal charges the manuscript processing fees to the authors. If the paper is accepted for publication, you will be asked to pay Manuscript Publication Fee of **USD 100.00** for non-Indian authors/institutions and **INR 4000.00** Indian authors/institutions along with Copy Right Form. Payment can be made through Demand Draft (Indian Only), NEFT transfer, Account Deposit, Wire Transfer (Non-Indians) and online payment.

Once manuscript accepted, all the authors are requested to pay manuscript processing fee using Demand Draft or E-Payment.

Demand Draft should be drawn in favour of '**Greens Trust**' Payable at **Turuvekere** and Demand Draft should be sent to **Journal Address** followed by e-mail of the copy of remittance.

Account pay/RTGS/NEFT/Wire Transfer (Non-Indians) payment should be made using following account details and copy of remittance should be sent by email.

NAME	: GREENS TRUST
BANK NAME	: STATE BANK OF INDIA
BRANCH	: TURUVEKERE
ACCOUNT NO	: 37252563064
IFSC NO	: SBIN0040104
SWIFT CODE	: SBININBB170

Waiver policy is only applied for reviewers, associate editors and members of this journal. An associate editor, or a reviewer, could get free publication for one manuscript if he/she has received in his/her area, or revised a considerable amount of manuscripts. Authors, who publishing their manuscript frequently in this journal, could get partial waive off in the manuscript processing fees by requesting the Editor.

AUTHOR SERVICE (LANGUAGE AND TECHNICAL EDITING)

Please write your text in good English (American or British usage is accepted, but not a mixture of these). Authors who feel their English language manuscript may require editing to eliminate possible grammatical or spelling errors and to conform to correct scientific English may wish to use the English Language and Technical Editing service available from journal's author service link (<http://www.greenstrust.com/author-service/>) or contact the editor for more information.

PREPARATION AND SUBMISSION OF MANUSCRIPT

1. Cover letter: While submitting the manuscript the corresponding author (on behalf of all the authors) should send Cover Letter followed by list of 5-6 reviewer's address. Without the declaration/cover letter and 5-6 reviewers address (Name, Designation, Affiliation, Address, Email id, Specialization, etc.), the manuscripts are not considered for further processes and publication.

2. Title of the Paper (Calibri Font size - 16 point)

3. Name of the author(s) with initials and the name and address of the institution and email.

4. Abstracts (Calibri Font size - 10 point): *An abstract of 200 to 250 words in Italics that sketches the purpose of the study, basic procedures; main findings its novelty; discussions and the principal conclusions, should not contain any undefined abbreviations or references.*

5. Key words (Calibri Font size - 10 point): Provide maximum 6 keywords, which can be used for indexing purposes. Keywords should not repeat the words of the manuscript title or contain abbreviations and shall be written in alphabetical order as separated by semicolon. Abbreviations should be defined at first mention and used consistently thereafter through the text.

6. Text (Calibri Font size - 12 point, bold): The paper must contain preferably **1. Introduction, 2. Methods and Material, 3. Results and Discussion, 4. Conclusion and Acknowledgement:** including information on grants received, before the **References**, in a separate section. Subsections should be numbered 1.1 (then 1.1.1, 1.1.2, ...), 1.2, etc. (the abstract is not included in section numbering). Use this numbering also for internal cross-referencing: do not just refer to 'the text'. Any subsection may be given a brief heading. Each heading should appear on its own separate line.

7. Tables (Calibri Font size - 12 point, bold): Charts and Tables should be in MS Excel or MS Word and images in JPG format using maximum possible high resolution and should be numbered sequentially as they appear, *i.e. Table 1, Table 2*, etc.

8. Figures: Figures should be numbered sequentially as they appear, *i.e. Figure 1, Figure 2*, etc., and a caption should appear directly below each figure.

9. Mathematical Equations: Authors may create their mathematical equations by using equation editor.

10. Acknowledgements: Authors may acknowledge for the contribution, partial support, funding agency, etc

10. References (Calibri Font size - 12 point): References must be typed in the following order: Surname and initials followed by title of the article, name of journal in abbreviated (name of book in normal), publication year, volume no., page no. or standard Vancouver style referencing can be followed using any reference management tools (ex: Mendeley, Endnote, etc).

1. Anilkumar KM, Pallavi S, Midhun G, Shivaraju HP, et al. Assessment of socio-economic condition of Kodagu District: A case study. *In J Environ Health Technol.* 1982; 2(6): 20-28.

2. Augusta GS, Applications of TiO₂ nanomaterials in Chemistry. Harini R (Editor), Academic Press, New York, 1995: 351-356.

Citations must be numbered consecutively in brackets (1). The list of references should be arranged in the order of citation in text, not in alphabetical order. Reference to only published journal articles (1), textbooks (2), papers in conference proceedings (3), chapters in books (4), technical reports (5) and theses (6), should provide sufficient information as in the samples and unpublished references not to be cited in the manuscripts.

Manuscripts must be submitted through the online using <http://www.greenstrust.com/ijeht/manuscript-submission/> link and other form of submissions are not considered for further processes.

TERMS AND CONDITIONS FOR ONLINE SUBMISSION

IJEHT, GREENS publisher is committed to upholding the integrity of the scientific record. Authors should refrain from misrepresenting research results, which could damage the trust in the journal, the professionalism of scientific authorship, and ultimately the entire scientific endeavour. Maintaining integrity of the research and its presentation can be achieved by following the rules of good scientific practice, which include:

- The manuscript has not been submitted to more than one journal for simultaneous consideration.
- The manuscript has not been published previously (partly or in full), unless the new work concerns an expansion of previous work.
- A single study is not split up into several parts to increase the quantity of submissions and submitted to various journals or to one journal over time.
- No data have been fabricated or manipulated (including images) to support your conclusions
- No data, text, or theories by others are presented as if they were the author's own ("plagiarism"). Proper acknowledgements to other works must be given, quotation marks are used for verbatim copying of material, and permissions are secured for material that is copyrighted.
- Consent to submit has been received explicitly from all co-authors, as well as from the responsible authorities - tacitly or explicitly - at the institute/organization where the work has been carried out, before the work is submitted.
- Authors whose names appear on the submission have contributed sufficiently to the scientific work and therefore share collective responsibility and accountability for the results.
- Authors are strongly advised to ensure the correct author group, corresponding author, and order of authors at submission. Changes of authorship or in the order of authors are not accepted after acceptance of a manuscript.
- Adding and/or deleting authors at revision stage may be justifiably warranted. A letter must accompany the revised manuscript to explain the role of the added and/or deleted author(s). Further documentation may be required to support your request.
- Requests for addition or removal of authors because of authorship disputes after acceptance are honored after formal notification by the institute or independent body and/or when there is agreement between all authors.
- Upon request authors should be prepared to send relevant documentation or data in order to verify the validity of the results. This could be in the form of raw data, samples, records, etc. Sensitive information in the form of confidential proprietary data is excluded.

If there is a suspicion of misconduct, the GREENS publisher will carry out an investigation. If, after investigation, the allegation seems to raise valid concerns, the accused author will be contacted and given an opportunity to address the issue. If misconduct has been established beyond reasonable doubt, this may result in the Editor-in-Chief's implementation of the following measures, including, but not limited to:

- If the article is still under consideration, it may be rejected and returned to the author.
- If the article has already been published online, depending on the nature and severity of the infraction, either an erratum will be placed with the article or in severe cases complete retraction of the article will occur. The reason must be given in the published erratum or retraction note. Please note that retraction means that the paper is maintained on the platform, watermarked "retracted" and explanation for the retraction is provided in a note linked to the watermarked article.
- The author's institution may be informed.

All benefits in any form from a commercial party related directly or indirectly to the subject of this manuscript or any of the authors must be acknowledged. For each source of funds, both the research funder and the grant number should be given. This note should be added in a separate section before the reference list.

If no conflict exists, authors should state: The authors declare that they have no conflict of interest.
